### 72" SWEEPER ATTACHMENT

SAFE OPERATION NEEDS A QUALIFIED OPERATOR

#### Qualifier Operator Must Do The Following:

- Understand the written instructions, rules and regulations
- Have training with actual operation
- Know the work conditions
- Use Safety Rules:
  1. Check that the Bob-Tach levers are in the locked position and the wedges are fully engaged into the holes of the attachment.
  2. Make sure all the controls (steering levers, foot pedals, mechanical and advanced hand controls) are in the **NEUTRAL** position before starting the Bobcat loader.
  3. Keep your feet on the pedals (or foot rests), seat belt fastened snugly and seat bar lowered when operating the bobcat loader and attachment.
  4. When learning to operate the attachment, do so at a slow rate in an area clear of bystanders.
  5. **DO NOT** permit personnel to be in the work area when operating the bobcat loader and attachment.
  6. Before leaving the operator's seat, always lower the lift arms fully, engage the brake, stop the engine, raise the seat bar and move foot pedals and mechanical hand controls (if equipped) until both are locked.
  7. **DO NOT** make any adjustments or repairs on the Bobcat loader or attachment while the engine is running.
  8. Wear safety approved eye protection.
  9. **DO NOT** modify equipment or add attachments that are not approved by the manufacture,
  10. Attachment must be used **ONLY** on machines with the correct lo capacity.
  11. Operated the Sweeper only from the operator's seat.
  12. Never operate the Sweeper in a lifted position. Work only on the surface that the machine is standing on.
